

**455D.9 Land disposal of yard waste — prohibited.**

1. Land disposal of yard waste as defined by the department is prohibited. However, yard waste which has been separated at its source from other solid waste may be accepted by a sanitary landfill for the purposes of soil conditioning or composting.

2. The department shall assist local communities in the development of collection systems for yard waste generated from residences and shall assist in the establishment of local composting facilities. Each city and county shall, by ordinance, require persons within the city or county to separate yard waste from other solid waste generated.

3. The department shall adopt rules which define yard waste and provide for the safe and proper method of composting yard waste and other organic materials.

4. State and local agencies responsible for the maintenance of public lands in the state shall give preference to the use of composted materials in all land maintenance activities.

5. This section does not prohibit the use of yard waste as land cover or as soil conditioning material.

6. This section prohibits the open burning of yard waste within the permitted boundary at a sanitary disposal project.
